

C++ Skeleton

includes all the library

```
#include <bits/stdc++.h>
```

using namespace std; → for input/output to print

it won't return anything

```
void print() {  
    cout << "Rizon";  
}
```

```
int sum(int a, int b) {  
    return a + b;  
}
```

a = 1 b = 5
return 6

```
int main() {  
    print();  
    int s = sum(1, 5);  
    cout << s; // print 6  
    return 0;  
}
```
